Subject: Region 4 OSC contact

Hi Melissa,
Just FYI. Can you keep Art in mind if anything happens/you hear of that he should know?
(cell phone (502) 905-7559.)

He is the Region 4 OSC stationed in Kentucky and will be involved.
Art has been an OSC for a long time.

Thanks....

Jack, I'm trying to better understand the "other chemical" issue. First, I take it from the Werner email below that the "pasted graphic" attachment is the correct MSDS describing what was mixed in the tank at about 6-7% by weight with the Crude MCHM. Please confirm.

If so, the attachment appears to be a scanned copy of the 1st page of the MSDS. Do you have the full MSDS for this material?

Thanks. If it's easier to explain, and you have the time, you could call on my cell phone **Ex. 4 - CBI**

All:

See Lora's email and attached.....

I had to get off yesterday's call early. I guess we have a 9 am call today.... I just got buzzed on my Blackberry.

Jack, could you share with the full 9 am group?

Are we talking today? I have a request to pass along from my HQ/the state related to analytical for PPH.

This apparently is the corrected MSDS for the other material.

Lora
